

Stimulate sports and exercises with SportKompas

Sportamundi and Studio Dott have been 'partners in crime' for some time. We helped determine the strategy of their new service, shaped their new corporate identity, designed an intuitive web platform to monitor athletes, created an 'outer space' experience for children between 8 and 10 years old and developed a physical toolbox and fun app to help kids discover their favorite sport. A total approach that includes all our services!

I Like app

DIGITAL

BRANDING

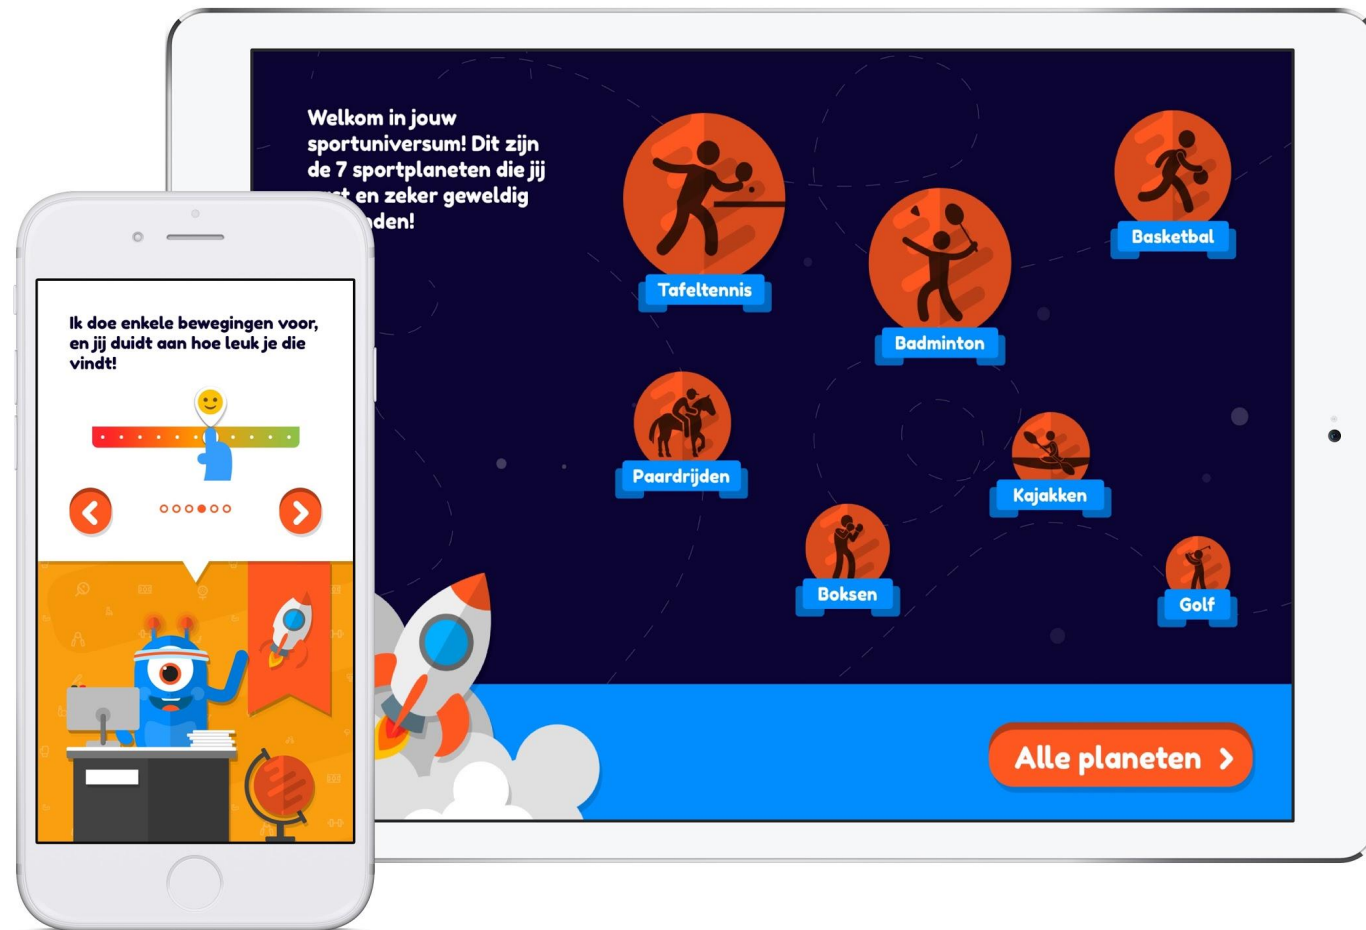

STRATEGY

- Mobile web application
- Orientation tool that helps children from 8 to 10 years old to choose the right sport
- Combination of what a child likes and exercises that determine the performance possibilities of a child

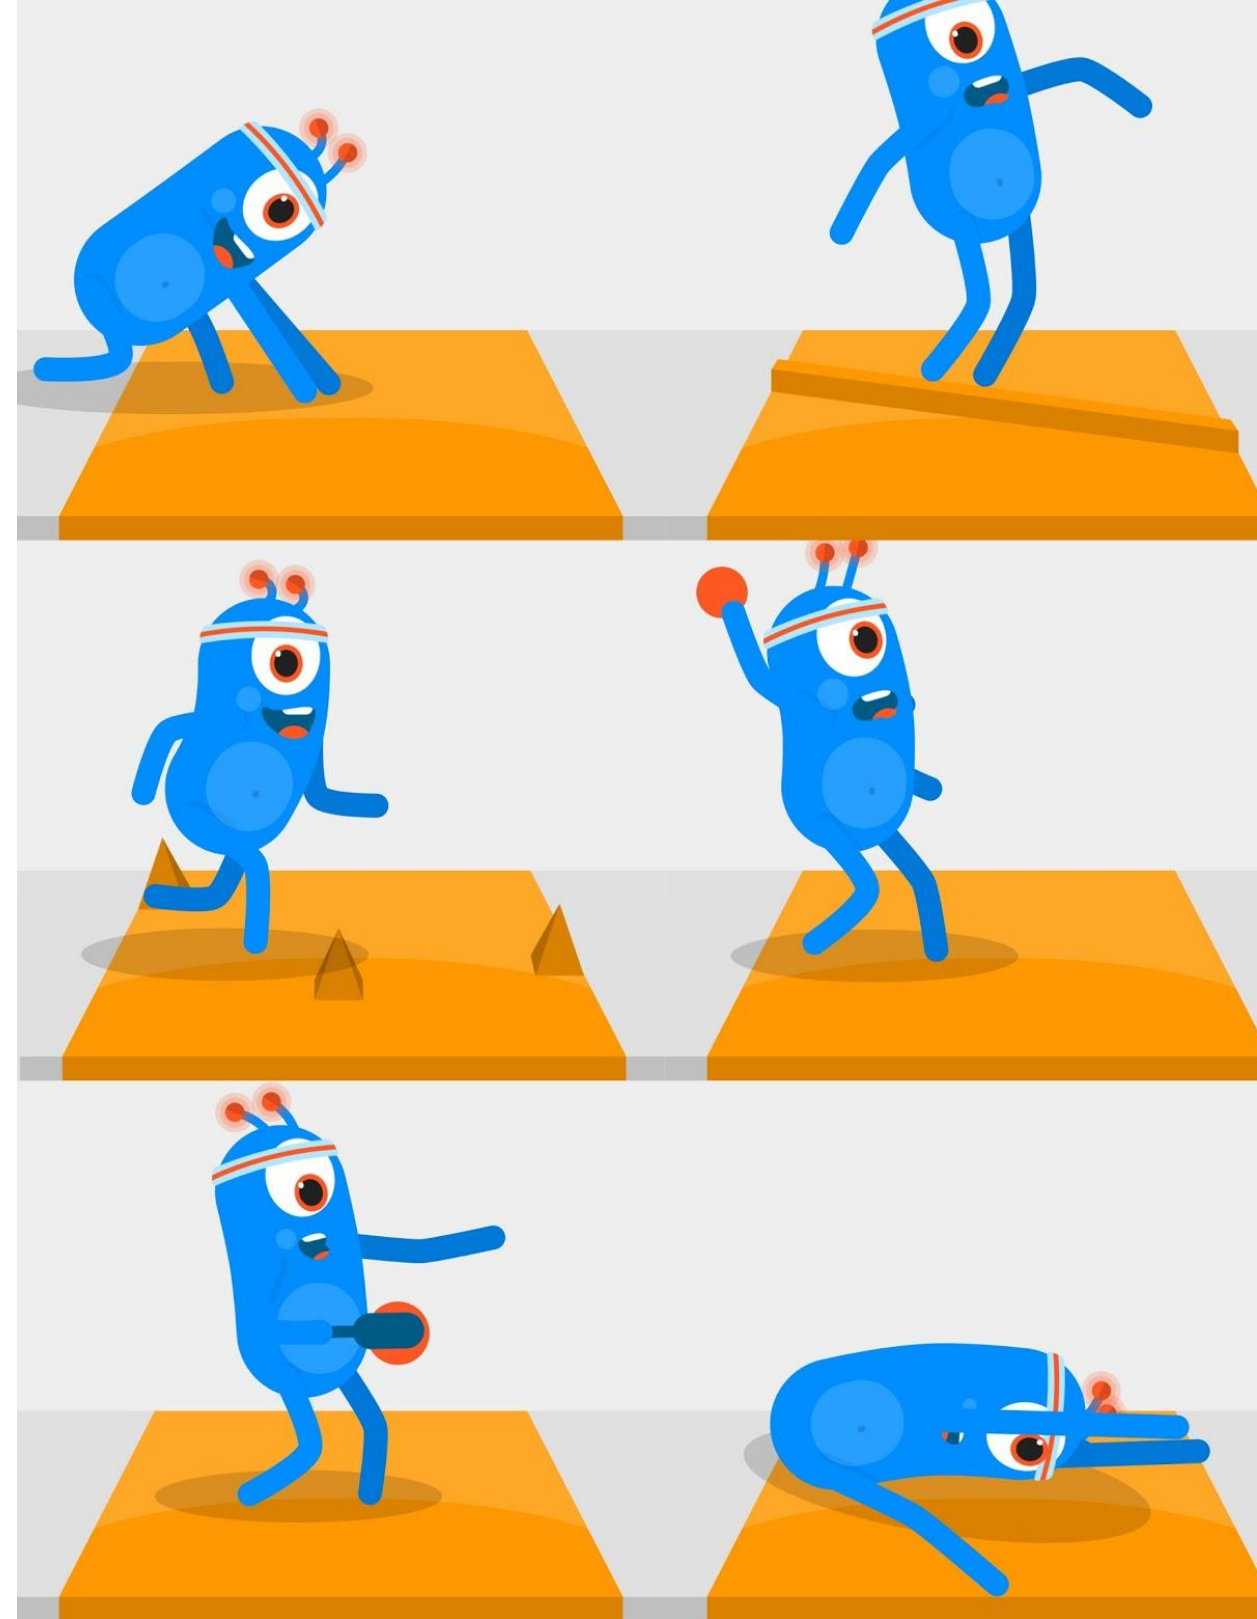

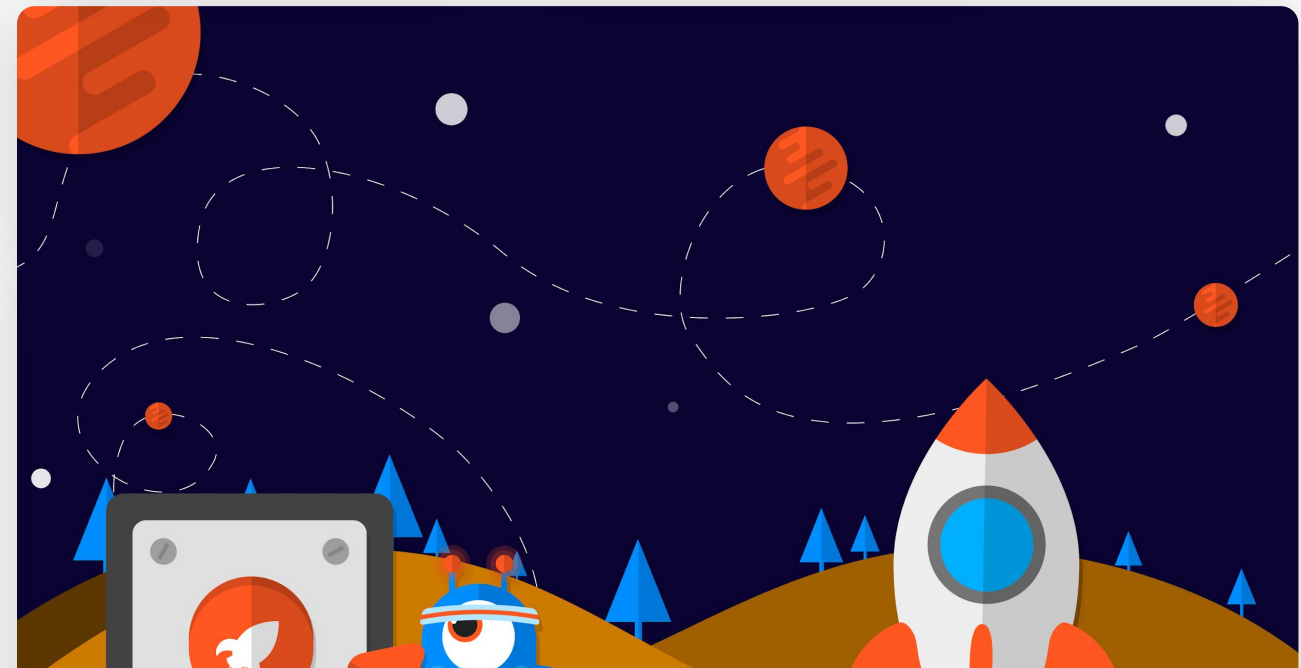

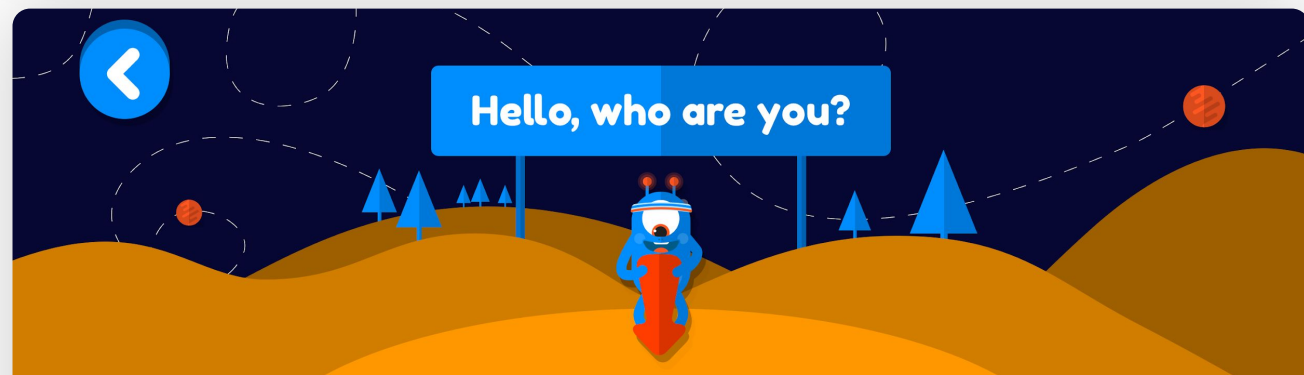

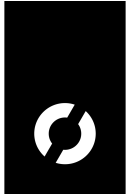

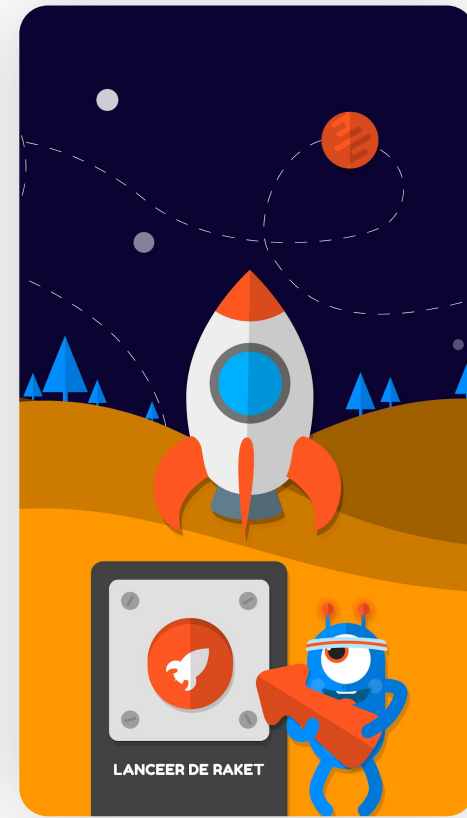

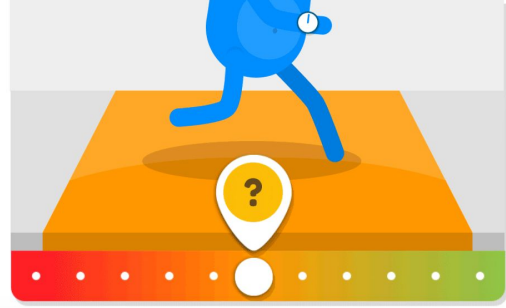

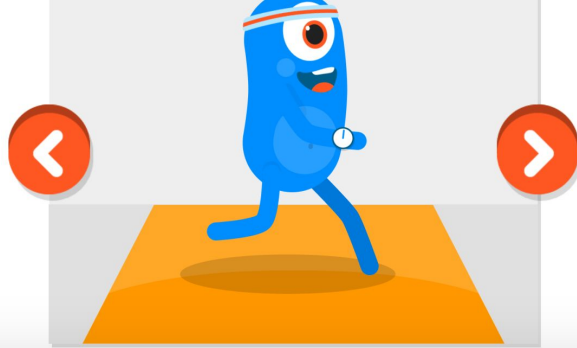

Sporti universe

From 2D black and white images to a colorful and animated world that appeals to the imagination of children.

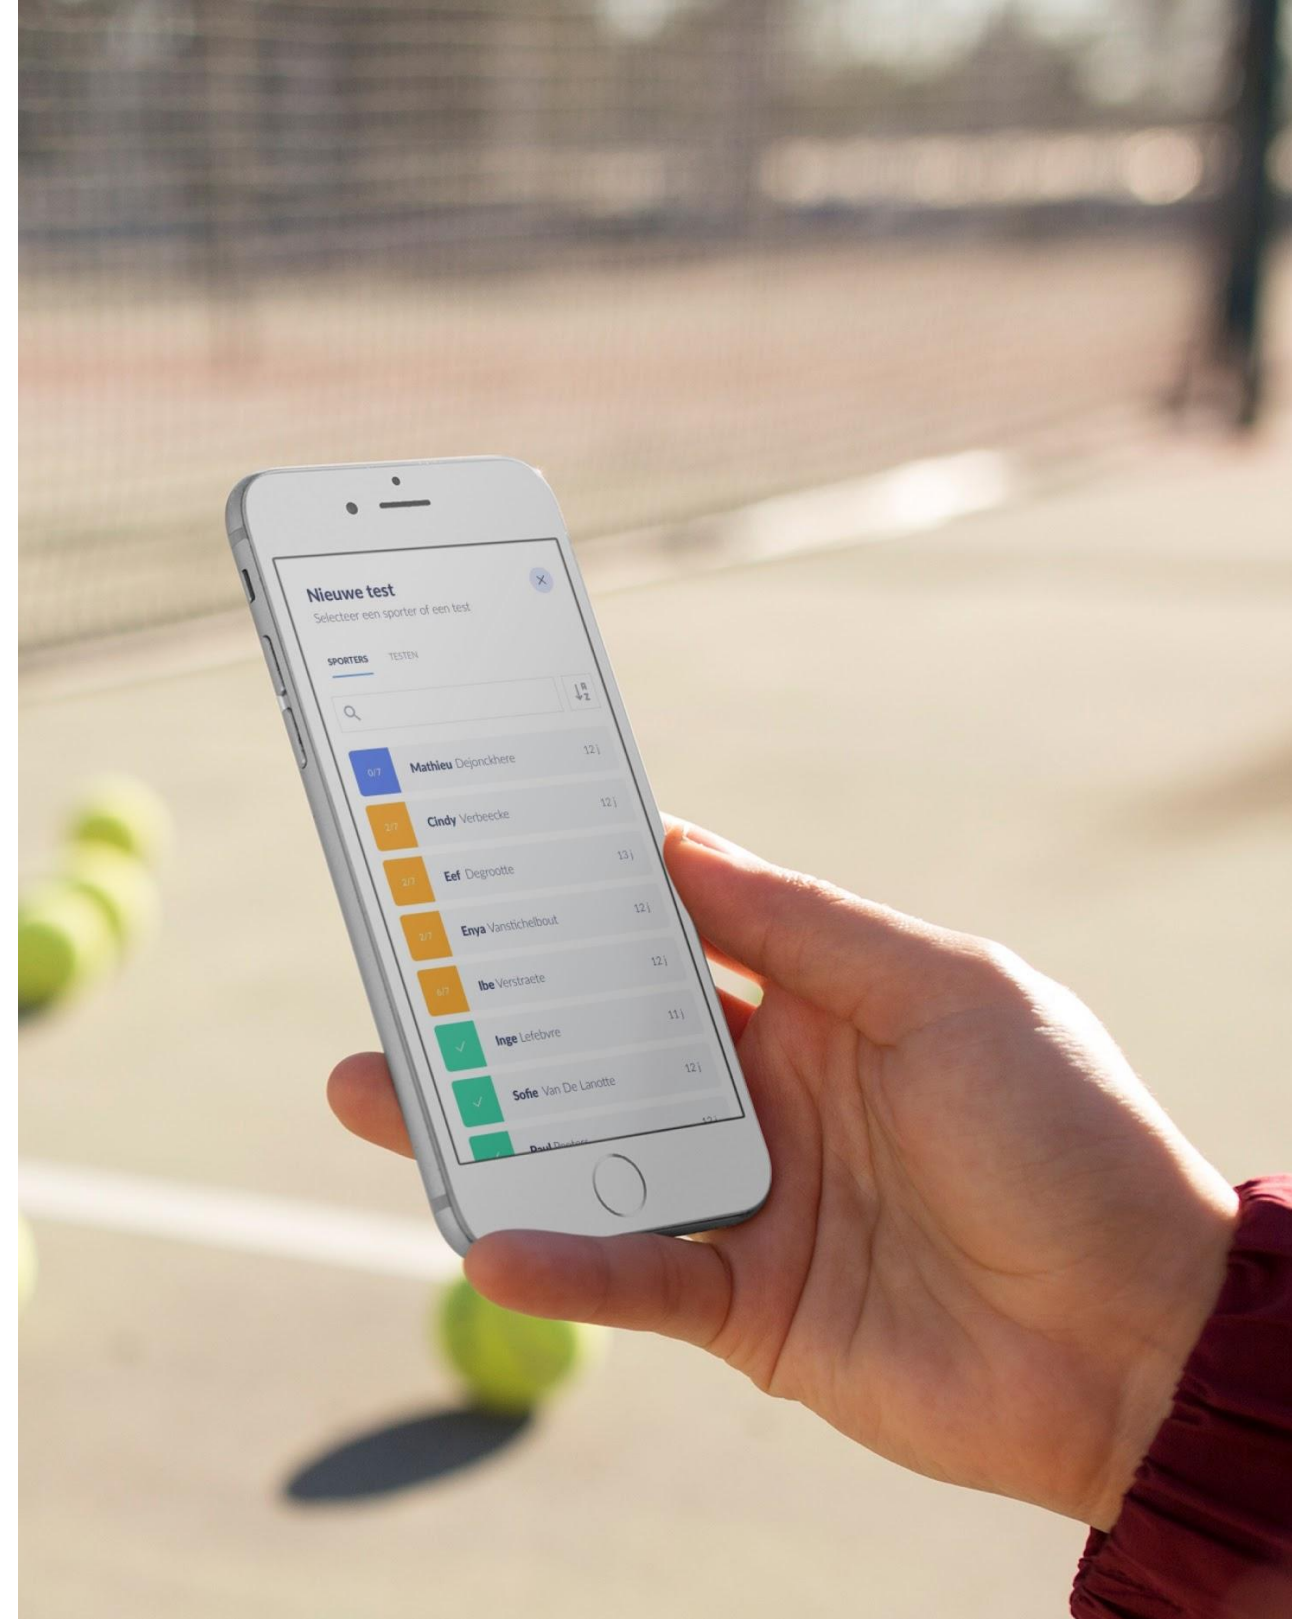

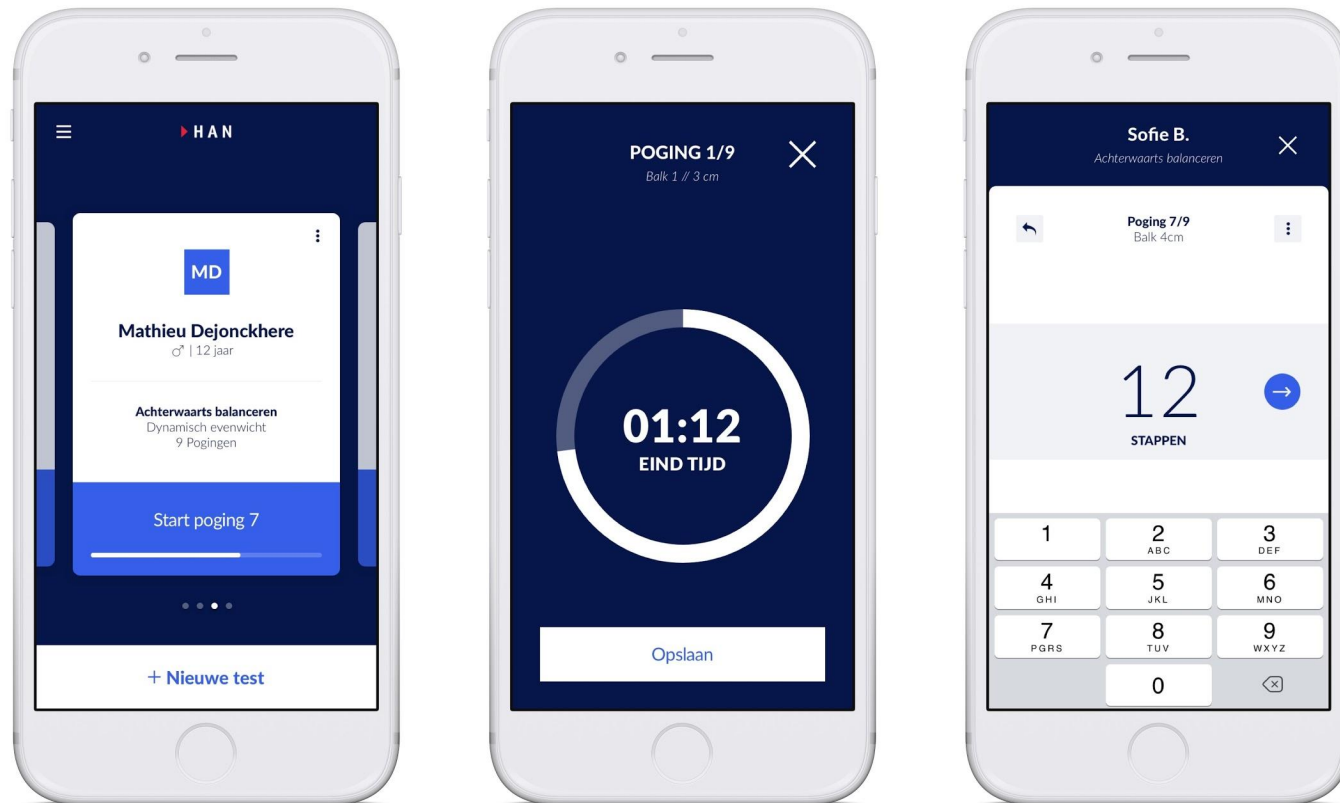

Studio Dott. Digital portfolio

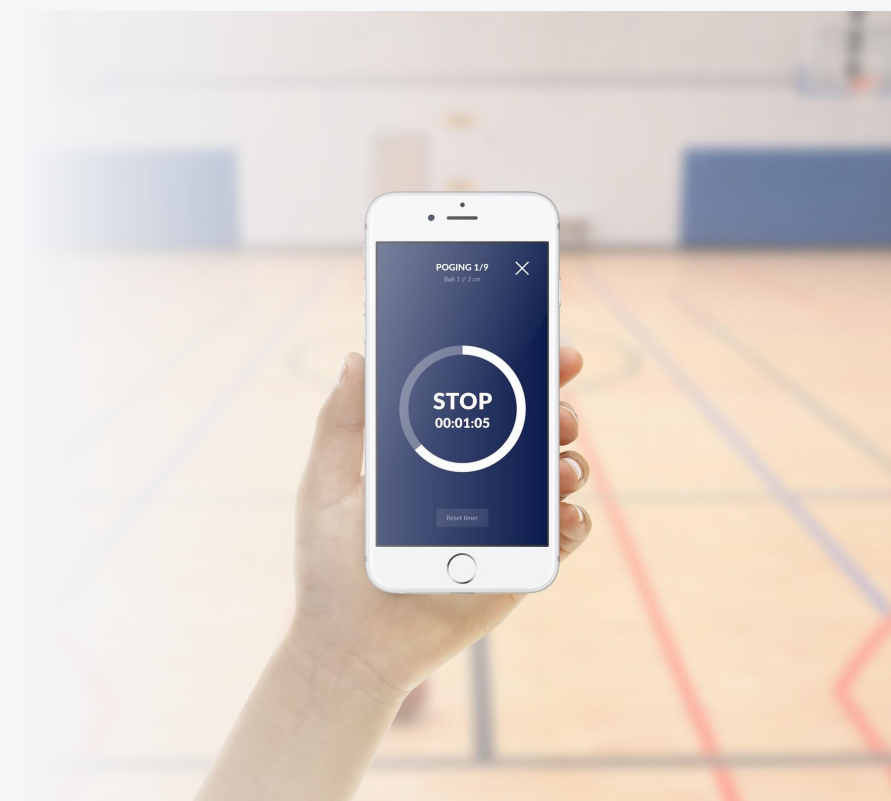

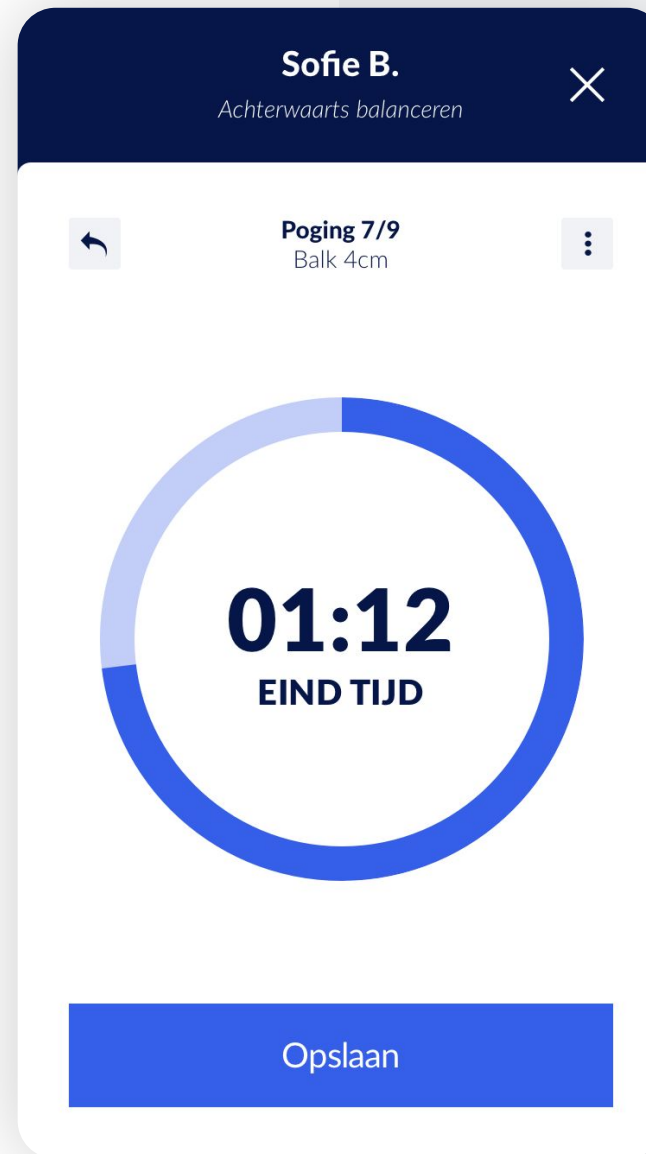

I Do app

Studio Dott also designed a smartphone application to supervise the tests and register the results. In this way, in addition to PE teachers, volunteers can easily take the tests in a scientifically consistent manner.

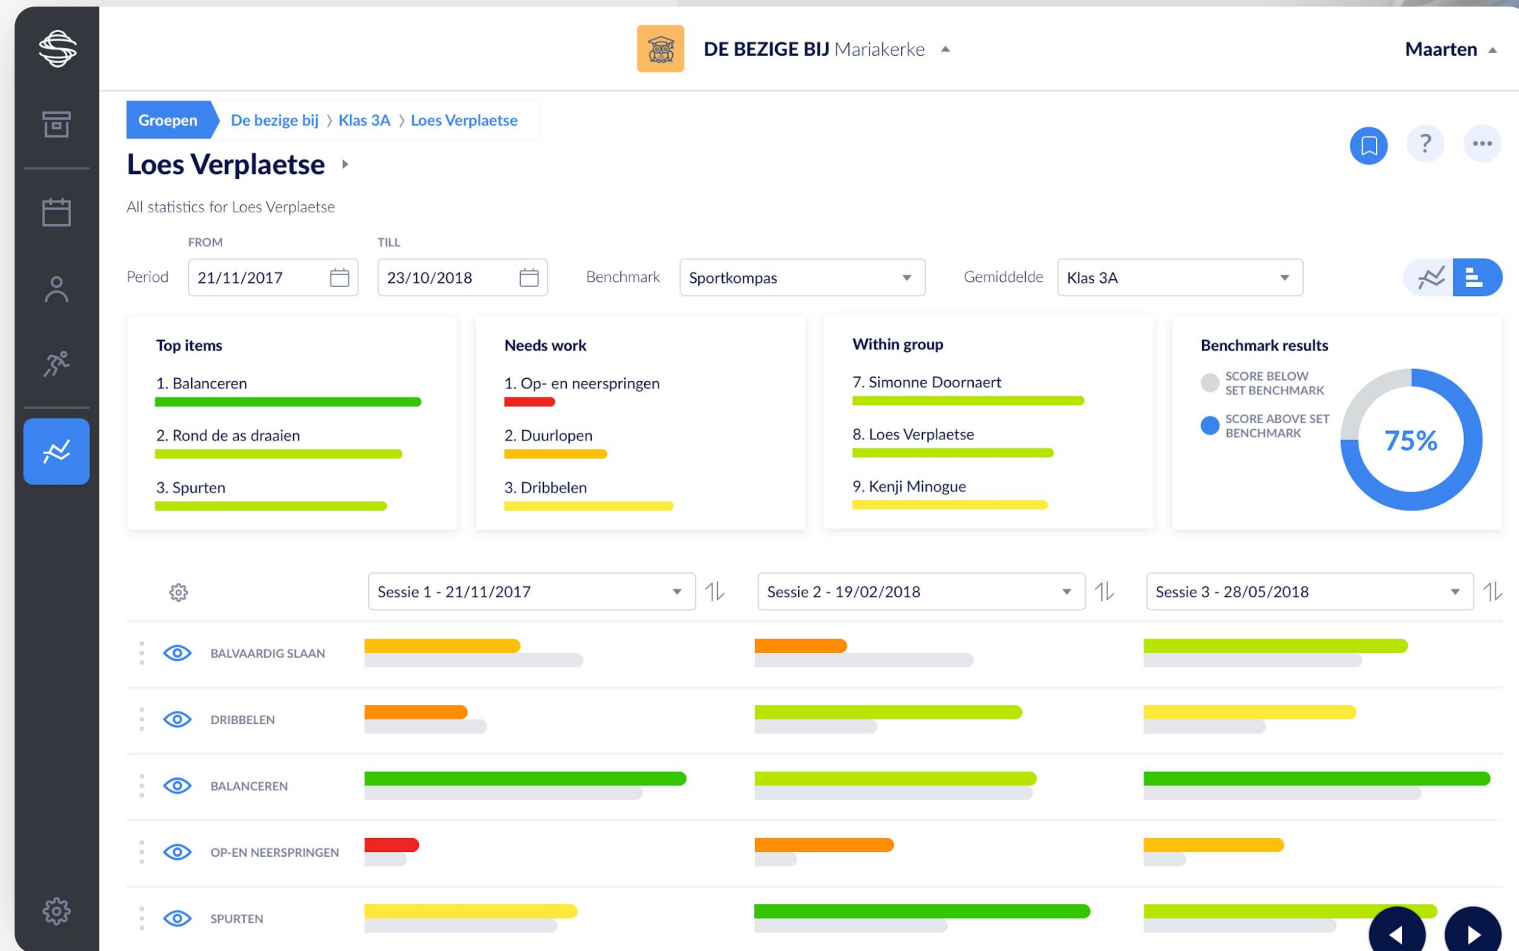

I Do app

Responsive web app

Back office application to enroll and monitor participants and compare their results
